Dear Bunny;

The package care in today from Kagin with the three lots that I obtained for you from their auction. I examined the important 1854 Proof Quarter and I am satisfied that it is a coin you would be pleased with.

To make it easier for our bookkeeping, please make out one check for the total billed by Kagin to me and another check to cover our phone expenses and nominal commission. Kindly send both checks directly to me.

If I can be of any further service at anytime in any of the important sales, don't hesitate to call.

Please note on the enclosed coinform any of your other specific wants for your type collection.

I would suggest that now that you have come this far in the minor series that you give some thought to building up a type set of U. S. Gold in the best available condition. At this time we can offer quite a few of the various and important types and would be only too happy to send them to you for your inspection.

Very truly yours

Enclosing the two coins you requisted.

When I look at a coin like the enclosed 1819, hate to mail it out, to me they sell coins like 1938-D half EF for more or around that figure, and here is a coin much rarer, same price.

You will see the small 0 in cirle inside of the 0 in date. It is light but shows up well, you will  $h_{\beta}ve$  to use a coin glass, the # 0 in circle rarely turns up, scarce variety.

Sincerely,
